

# Legislative Council Environment and Planning Committee

Hearing Date: 12 October 2023

## Question[s] taken on notice

**Directed to:** Rivervue Retirement Village Residents, Colin Waters

**Received Date:** 31 October 2023

#### **Question Asked:**

Do you have any evidence of that? That is the first time we have heard that there was some ministerial pressure. You can take it on notice and provide it.

**Response:** The Wimbush C-151 report 30<sup>th</sup> Nov 2015 mentions that the recommendations he made had strong policy support and the attached C151-Amendment file talks about ministerial alignment to policies (see highlighted sections).

It would take a ministerial directive for MW ever to work on something that had been something that was safely managed for decades. I see no in-house energy from anyone at MW to want to expose themselves to guaranteed risk of failure.
