

**Correction to transcript – Registered organ and tissue donor inquiry**

Thursday 28 September 2023

Dear Legal and Social Issues Committee,

I write to correct the Department of Transport and Planning's testimony. On page 9 of your transcript, the current text reads:

Jacqui SAMPSON: Yes. So there are two, Queensland and New South Wales. So New South Wales and Queensland released theirs last year, and then Victoria is the third state that has a digital licence.

I would like to amend the comment to:

Jacqui SAMPSON: Yes. So there are three , South Australia, Queensland and New South Wales. So South Australia released theirs in 2017, New South Wales in 2019 and Queensland released theirs in pilot stage last year, and then Victoria is the fourth state that has a digital licence.

Thank you for the opportunity to provide evidence at the hearing and I appreciate your consideration of this corrections.

Regards,  
Tim Mitchell

Acting Executive Director  
Regulatory Programs and Services  
Department of Transport and Planning
