Introduction – Financial and Performance Outcomes Questionnaire

The Committee's inquiry into the 2021-22 and 2022-23 Financial and Performance Outcomes examines:

- the Government's actual expenditure and revenue compared to the budgeted expenditure and revenue
- the actual performance outcomes against the targeted performance outcomes at a departmental/agency level
- other expenditure unforeseen at the time of preparing the 2021-22 and 2022-23 Budgets and outcomes achieved.

The inquiry aims to benefit the Parliament and the community by:

- promoting the accountability, transparency and integrity of the executive and the public sector
- encouraging the effective and efficient delivery of public services and assets.

This questionnaire seeks information on the departmental/agency financials for the 2021-22 and 2022-23 financial years, what was achieved during those years and how that compares to expectations.

Consistency with the budget papers

Wherever referring to an initiative/program/project that is referred to in the budget papers, please use the same name as is used in the budget papers. This ensures that the Committee can correlate the information provided by the department with the information in the budget papers.

Basis of consolidation

For departments, please use the same basis of consolidation as was used in the budget papers and in the budget portfolio outcomes statement in the department's annual report.

Section A: Output variances and program outcomes

Question 1 (all departments) Completed output initiatives from past budgets [VFMC response not required]

For all initiatives that were completed in 2021-22 and 2022-23, please provide details of the expected outcomes for the community of the initiative and the actual outcomes achieved to date. Please use initiatives names as specified in *Budget Paper No. 3: Service Delivery* and link the initiative to the responsible output(s) and portfolio(s).

2021-22 Response

Initiative	Year and fund Budget year	ding allocated Funding allocated	Actual date of completion (month and year)	Expected outcomes	Actual outcomes	Output(s) and portfolio(s)

Question 2 (all departments) Program outcomes

[VFMC response not required]

Outcomes reflect the impact on the community of the goods and services provided by a department. The questions in this section all relate to the outcomes that the department contributed to in 2021-22 and 2022-23.

- a) Using the format of the table below, please outline the five programs that delivered the most important outcomes in the community¹ achieved by the department in 2021-22 and 2022-23 including:
 - i. The name of the program
 - ii. The relevant output(s) and portfolio(s) responsible for delivery of the program
 - iii. The program objectives
 - iv. The actual outcome achieved
 - v. The actions taken to deliver the actual outcome (i.e. the most important elements/essential parts that led the department to deliver the outcome).

2021-22 Response

Program	Output(s) and portfolio(s)	Program objectives	Description of actual outcome achieved	Description of the actions taken to deliver the actual outcome

¹ 'Outcomes' are the impact of service delivery on the community rather than a description of the services delivered. The Committee considers that an outcome could be considered important for a variety of reasons, such as the amount of funding allocated to the program, the public interest in the service or goods being delivered or where particular actions taken by the Department delivered improved outcomes.

4.		
5.		

b) Using the format of the table below, please outline the five least performing programs that did not deliver their planned outcomes in the community by the department in 2021-22 and 2022-23 including:

i. The name of the program

- ii. The relevant output(s) and portfolio(s) responsible for delivery of the program
- iii. The program objectives
- iv. The actual outcome achieved
- v. Explanation for not achieving the planned outcome (including a description of what actions were taken to try and achieve the planned outcome).

Question 3 (all departments) Treasurer's Advances and other budget supplementation

[VFMC response not required]

a) Please identify all output(s) and portfolio(s) (and relate them to departmental programs) for which the department received additional funding after the initial Budget in 2021-22 and 2022-23.

For each output, please quantify the additional funding, indicate the source of the additional funding (e.g. Treasurer's Advance, unused prior years appropriations under s32 of the *Financial Management Act 1994* (Vic), supplementation through a Temporary Advance under section 35 of the FMA, or any possible sources of funding as listed in the Resource Management Framework (2023), (section 4, pg. 69) and explain why additional funding was required after funding was allocated in the Budget.

2021-22 response

Output(s) and portfolio(s)	Program	Program objectives	Funding allocated in 2021-22 Budget	Additional funding (\$ million)	Source of additional funding as per the Resource Management Framework	Funding utilised 2021-22	Reasons why additional funding was required

Question 7 (all departments) Capital expenditure variances, completion date and scope changes – existing projects [VFMC response not required]

Please provide details of all capital asset programs where:

- a) there was a variance between TEI at announcement compared to the revised TEI as at 30 June 2022 and 30 June 2023 of equal to or greater than ±5% and an explanation for the variance
- b) the estimated completion date at announcement is different to the completion date as at 30 June 2022 and 30 June 2023 and an explanation for the change
- c) the scope of the project at announcement is different to the scope of the project as at 30 June 2022 and 30 June 2023.

Question 9 (all departments) High-value high-risk projects, gateway reviews and business cases [VFMC response not required]

Under the High Value High Risk (HVHR) Framework, a project will be classified as HVHR if it is a budget funded project that has a Total Estimated Investment (TEI) of over \$250 million. HVHR projects are subject to compulsory Gateway reviews, where Gates 1 through 6 are compulsory for all eligible projects: Gate 2 outlines the development of a business case.

Please list all projects included in the 2021-22 and 2022-23 financial years that were allocated to the department and were classified as HVHR and the project objectives. Please also specify which gateway reviews, if any, were completed during 2021-22 and 2022-23 and business case details for each project.

Section C: Revenue and appropriations

Question 12 (all departments and entities) Revenue – variances from previous year

Please explain any changes equal to or greater than ±10% or \$100 million between the actual result for 2020-21 and 2021-22 and the actual result for 2021-22 and 2022-23 for each revenue category detailed in your operating statement. Please also indicate what any additional revenue was used for or how any reduced amounts of revenue affected service delivery and then link it to the relevant output and portfolio.

Please also detail the outcomes in the community³ achieved by any additional expenses or the impact on the community of reduced expenses (if there was no impact, please explain how that was achieved).

For departments, please provide data consolidated on the same basis as the budget portfolios outcomes statement in your annual reports.

If there were no revenue/income categories for the department/agency for which the 2021-22 and the 2022-23 expenditure changed from the prior year's expenditure by more than ±10% or \$100 million, you do not need to answer this question. If this is the case, please indicate 'no relevant line items' in the table(s) below.

Revenue category	2020-21 actual (\$ million)	2021-22 actual (\$ million)	Explanations for changes ±10% or \$100 million	How the additional revenue was used/the impact of reduced revenue. If no impact, how was this achieved	Relevant output(s) and portfolio(s)
Management fee revenue	171.3	187.8	Management fees are based on the level of funds under management (FUM) and the out-performance of external fund managers. The increase in management fee revenue is due to the significant increase in FUM in the first 9 months of the year.	The higher revenue levels resulted in an increased surplus that, in turn, allowed a larger dividend payment to the State	N/A
Performance fees revenue	5.9	10.0	Performance fee revenue increase driven by higher out-performance over benchmarks as compared to prior year.		
Interest income	0.07	0.15	Increase due to higher cash balance.		

³That is, the impact of service delivery on the community rather than a description of the services delivered.

Revenue category	2021-22 actual (\$ million)	2022-23 actual (\$ million)	Explanations for changes ±10% or \$100 million	How the additional revenue was used/the impact of reduced revenue. If no impact, how was this achieved	Relevant output(s) and portfolio(s)
Management fee revenue	187.8	181.8			N/A
Performance fees revenue	10.0	8.5	Performance fees revenue driven by FUM growth and out-performance over benchmarks. This out- performance was lower this year compared to prior year resulting in a reduction in performance fees.		
Interest income	0.15	1.6	Increase due to higher interest rates and VFMC joining Centralised Banking System (CBS).		

Question 13 (all departments and entities) Revenue – variances from budget to actual

Please explain any variances equal to or greater than ±10% or \$100 million between the initial budget estimate (not the revised estimate) and the actual result for 2021-22 and 2022-23 for each revenue category detailed in your operating statement. Please also indicate what any additional revenue was used for or how any reduced amounts of revenue affected service delivery and then link it to the relevant output and portfolio.

For departments, please provide data consolidated on the same basis as the budget portfolios outcomes statement in your annual reports.

Revenue category	2021-22 Budget estimate (\$ million)	2021-22 actual (\$ million)	Explanations for changes ±10% or \$100 million	How the additional revenue was used/the impact of reduced revenue. If no impact, explain why	Relevant output(s) and portfolio(s)
Management fee revenue	168.2	187.8	Management fees revenue are based on the level of funds under management (FUM) and the out-performance of external fund managers. The increase in management fees revenue is due to the increase in FUM.	The higher revenue levels resulted in an increased surplus that, in turn, allowed a larger dividend payment to the State.	N/A
Performance fees revenue	6.5	10.0	Performance fees revenue driven by FUM growth and out-performance to benchmarks.		
Interest income	0.1	0.15	Increase due to higher cash balance.		

Revenue category	2022-23 Budget estimate (\$ million)	2022-23 actual (\$ million)	Explanations for changes ±10% or \$100 million	How the additional revenue was used/the impact of reduced revenue. If no impact, explain why	Relevant output(s) and portfolio(s)
Management fee revenue	199.7	181.8	Management fee revenue is based on the level of funds under management (FUM) and the out-performance of external fund managers. The unfavourable variance to budget is due to a combination of lower FUM at the commencement of the year which was driven by strong falls in financial markets experienced in the last quarter of the previous year and the later than anticipated inflow of funds from the Victorian Future Fund.	The decrease in revenue resulted in a lower dividend paid to the State as compared to Budget The decrease in revenue levels resulted in a lower surplus than anticipated, in turn, resulting in a lower dividend payment to the State.	N/A
Performance fee revenue	12.3	8.5	Performance fees revenue below budget due to lower than planned out- performance to benchmarks.		
Interest income	0	1.6	Increase due to higher interest rates and VFMC joining Centralised Banking System (CBS).		

Section D: Expenses

Question 14 (all departments and entities) Expenses changed from previous year

Please explain any changes equal to or greater than ±10% or \$100 million with regards to the actual result for 2020-21 and 2021-22 and the actual result for 2021-22 and 2022-23 for each category of expenses detailed in your operating statement. Please explain any changes equal to or greater than ±10% or \$100 million with regards the actual result for 2021-22 and the 2021-22 budget estimate and the actual result for 2022-23 and the 2022-23 budget estimate. Please also detail the outcomes in the community⁴ achieved by any additional expenses or the impact on the community of reduced expenses (if there was no impact, please explain how that was achieved).

For departments, please provide data consolidated on the same basis as the budget portfolios outcomes statement in your annual reports.

Expenses category	2020-21 actual \$ million	2021-22 actual \$ million	Explanations for variances ±10% or \$100 million	Outcomes achieved by additional expenses/impact of reduced expenses. If no impact, how was this achieved
Portfolio management and custodian expenses	102.1	112.3	Portfolio management and custodian expenses are based on the level of funds under management (FUM) and the out-performance of external fund managers. The increase in is due to the significant increase in FUM in the first 9 months of the year.	
Employee benefit expenses	27.5	33.8	The increase was due to some additions to headcount, the payment of deferred incentives from FY21 (there was no deferral from FY20 in the prior year), and remuneration pressure in the face of heightened attrition.	
Depreciation and amortisation expenses	2.2	2.6	Amortisation increased significantly on the prior the year with the capitalisation of the new Data and Analytics platform commencing this year.	
Other operating expenses	23.0	25.0		

⁴That is, the impact of service delivery on the community rather than a description of the services delivered.

Expenses category	2021-22 budget \$ million	2021-22 actual \$ million	Explanations for variances ±10% or \$100 million	Outcomes achieved by additional expenses/impact of reduced expenses. If no impact, how was this achieved
Portfolio management and custodian expenses	104.2	112.3	Portfolio management and custodian expenses are based on the level of funds under management (FUM) and the out-performance of external fund managers. The increase in is due to the significant increase in FUM in the first 9 months of the year.	
Employee benefit expenses	34.1	33.8		
Depreciation and amortisation expenses	1.5	2.6	Amortisation costs were greater than budget as the budget conservatively assumed all expenditure on the Data and Analytics platform would be expensed as incurred. On further analysis some of this expenditure was appropriately capitalised and amortised.	
Other operating expenses	19.6	25.0	Increase in this line item was the result of additional expenses incurred associated with new asset classes created as part of the Investment Risk Management Plan (IRMP), supply side issues in the IT space driving up licensing, operational support and hardware costs, an increase in investment- related legal and tax costs and additional costs related to the return to office in the 2 nd Quarter of FY22 (post COVID-19 lockdowns).	

Expenses category	2021-22 actual \$ million	2022-23 actual \$ million	Explanations for variances ±10% or \$100 million	Outcomes achieved by additional expenses/impact of reduced expenses. If no impact, how was this achieved
Portfolio management and custodian expenses	112.3	113.1		
Employee benefit expenses	33.8	37.2	Implementation of Analyst program and remuneration pressures in a very tight financial services employment market.	
Depreciation and amortisation expenses	2.6	2.4	Depreciation was favourable to the budget as the level of capital expenditure was below than originally anticipated.	
Other operating expenses	25.0	28.8	Increase in variable costs associated with IT platforms (driven by FUM) and increased expenditure on Cyber Security resilience. Insurance premiums increased significantly on the prior year following a strategic review of VFMC's coverage and increased re-insurance costs in the Cyber Security space. Recruitment costs increased with higher staff turnover. Increased travel costs of investment professional as the world opened up again post- pandemic. Finally, inflation, being significantly higher than the previous year and the depreciation in the AUD/USD also lead to cost increases.	

Expenses category	2022-23 budget \$ million	2022-23 actual \$ million	Explanations for variances ±10% or \$100 million	Outcomes achieved by additional expenses/impact of reduced expenses. If no impact, how was this achieved
Portfolio management and custodian expenses	121.5	113.1	The favourable variance to Budget is due to a combination of lower FUM at the commencement of the year which was driven by strong falls in financial markets experienced in the last quarter of the previous year and the later than anticipated inflow of funds from the Victorian Future Fund.	
Employee benefit expenses	38.2	37.2		
Depreciation and amortisation expenses	2.0	2.4	Amortisation costs increased relative to budget due to greater capitalisation of data and analytics platform build-out relative to budgeted capitalisation assumptions.	
Other operating expenses	27.8	28.8		

Question 15 Expenses/interventions related to COVID-19 pandemic response

For 2021-22 and 2022-23, please outline the programs and/or initiatives that were announced as part of the Victorian Government's response to the COVID-19 pandemic in the order of the highest amount allocated.

Please indicate if the department made use of emergency advances and retroactive funding approvals.

Please note whether there are identified performance measures in the budget papers related to the announced programs and please provide details of the reported outcomes.

2021-22 Response

a) On budget

Name of the program/initiative	Program/initiative objectives	Expenditure as at 30 June 2022	Output/Portfolio	Use of emergency advances/ retroactive funding approvals – Yes or No	Performance measures for the program/Initiative	Outcomes/project status
N/A		<u> </u>				

b) Off budget⁵

Name of the program/initiative	Program/initiative objectives	Expenditure as at 30 June 2022	Output/Portfolio	Use of emergency advances/ retroactive funding approvals – Yes or No	Performance measures for the program/Initiative	Outcomes/project status
N/A						

⁵ 'Off budget' is where funds for programs/initiatives are not appropriated in the budget and therefore are not accounted for in the budget. For those programs that received appropriations through specially created programs or subprograms of the budget are known as 'on-budget arrangements'. For example, it could be that most COVID-19 initiatives are off budget items during 2020-21 unless prior budgeted programs were extended/expedited, etc due to COVID-19, then these would be classified as 'on budget'.

2022-23 Response

Question 16 (all departments and entities) Changes to service delivery from savings initiatives

For each of the savings initiatives detailed in the 2021-22 Budget please provide the following details of the impact on service delivery:

- a) Savings target in the 2021-22 Budget and the amount of the savings target allocated to the department/entity.
- b) Actual savings achieved in 2021-22 and the actions taken to achieve the savings target allocated and their impact, including the link to the relevant output and portfolio impacted.

Question 17 (all departments) Achievement of reprioritisation of existing resources [VFMC response not required]

The 2021-22 and 2022-23 Budgets include targets for 'reprioritisation and revenue offsets' to fund new initiatives (2021-22 Budget Paper No. 2, p. 68 and 2022-23 Budget Paper no. 2, p. 66). This is in addition to any savings or efficiencies resulting from expenditure reduction measures. For the department (including all controlled entities),⁷ please indicate:

- a) what areas of expenditure (including projects and programs if appropriate) the funding was reprioritised from (i.e. what the funding was initially provided for)
- b) what areas of expenditure were the funds actually spent on
- c) for each area of expenditure (or project or program), how much funding was reprioritised in each year
- d) the impact of the reprioritisation (in terms of service delivery) on those areas.

2021-22 Response

originally funded	Area of expenditure ctually funded	Value of funding reprioritised in 2021-22 (\$ million)	Impact of reprioritisation of funding (if no impact, how was this achieved)	Output(s) and portfolio(s) impacted (if relevant)

b) For 2021-22 and 2022-23, please provide information regarding any staffing challenges faced by the department, including but not limited to: staff shortages by category or position name, positions that were hard to staff, positions that were vacant for 6+ months, positions that have not equalled or surpassed attrition.

2021 – 2022

Turnover for the FY22 year was 24%, much higher than in previous years. A combination of a very competitive talent environment for VFMC and the post pandemic need for change meant elevated turnover across the funds management sector.

2022 - 2023

Turnover for the FY23 year was 19% - again higher than VFMC would have liked, but a small reduction from the prior year. We believe that this elevated turnover was a result of the increased growth in competitor private companies within investment management and the continued pressure on salaries within this sector, losing many talented individuals for much higher salaries to competitor organisations.

In the table below, please detail the salary costs for 2020-21, 2021-22 and 2022-23, broken down by ongoing, fixed-term and casual, and explain any variances equal to or greater than ±10% or \$100 million between the years for each category.
