270. **MRS CAMPBELL** - To move, That this House condemns the Minister for Conservation and Land Management for failing to accept that the warnings and criticism of the union and officers of the Metropolitan Ambulance Service on the Intergraph System who were well placed and, despite her vitriolic criticism and attacks upon them and the dedication to their work in the Ambulance Service, calls on her to give a substantial apology and acknowledgment that they were right and she was wrong and when she has finished apologising for her scurrilous and incorrect attacks upon the dedicated ambulance service workers, the House calls on her to resign.
271. **MR ROWE** - To move, That this House congratulates the members of the Cranbourne Ambulance Service for providing an excellent professional service to the people of Cranbourne and notes the support demonstrated by the community despite the attempts by the Deputy Leader of the Opposition, as a puppet of the Ambulance Union, to discredit these five dedicated officers and their families by deliberately misleading the community as to the true quality of this service.
272. **MR HAERMEYER** - To move, That this House condemns the Premier for allowing his Government to be the most corrupt Government in the history of this State since the Government of Tommy Bent and condemns the Member for Cranbourne for his part in that Government.
273. **MS DAVIES** - To move, That this House deplores the actions of the Minister for Agriculture and Resources in - (a) falsely raising the hopes of farmers in South and West Gippsland that the Productivity Enhancement Program interest subsidies can be used to purchase fodder, when no such use is currently possible; (b) failing to provide low interest loans to farmers to enable them to continue feeding their stock this winter; and (c) refusing to apply to the Federal Government for relief under Exceptional Circumstances legislation when Federal Government Members have indicated the likelihood of a favourable response to such an application.
274. **MR BRUMBY** - To move, That this House condemns the Government for its failure to recognise the extreme duress that many small businesses have suffered as a result of its failure to enact adequate retail tenancies legislation and that the Retail Tenancies (Amendment) Act 1995 failed to address the key problems faced by small business in Victoria and accordingly - (a) calls on the government to immediately increase the small business representation on the working party that has been established by the Minister for Small Business; and (b) the Government immediately introduce legislation that addresses: (i) the deficiencies in the process of valuation; (ii) the application of legislation to franchises and public corporations; (iii) changes in tenancy mixes in retail shopping complexes; (iv) the supply of landlord disclosure statements;

275. **MR BRUMBY** - To move, That this House notes the editorial of The Australian, May 22, 1997 headed "Failed Minister must go", and particularly its comment that Mrs Tehan has "since 1995 treated Parliament and by extension the people of Victoria with contempt over the Intergraph affair" and that as a consequence, "she should go", calls on the Premier to sack the Minister for Conservation and Land Management.
276. **MR BRUMBY** - To move, That this House notes the editorial of the Herald Sun on May 22, 1997 which stated that - (a) taxpayers require a detailed explanation from former Health Minister Marie Tehan why she is not responsible for the scandal arising from several breaches of government guidelines over contracts for a computer aided dispatch system for our emergency services; (b) Mrs Tehan has neglected to explain why she did not receive or was not made aware of the now controversial memo written only a month before the state election; and (c) Mrs Tehan's brief explanation to the Parliament on Tuesday, 20 May 1997 was far from satisfactory; fully endorses the Herald Sun's call for Mrs Tehan and the "government to name all those who had access to the Olszak paper; whether one or a number of persons withheld the information from the Minister; and having learned of the contents of the memo, whether Mrs Tehan made any subsequent attempt to question her former staff about why she was not informed".
277. **MR LONEY** - To move, That this House calls on the Government to introduce legislation immediately that will ensure that contract summaries relating to all asset sales and contracting out of government services are made available to the public within 90 days of the contract becoming effective, through tabling in Parliament by the responsible Minister and publication in a major newspaper; and where Parliamentary sittings cannot accommodate the 90 day rule, then tabling within three days of commencement of the next Parliamentary sitting will suffice; furthermore the contract summary is to be certified by the Auditor-General, after he has been given access to all information relating to the transaction, and once he is satisfied that relevant details are being disclosed and that matters claimed to be commercially sensitive are actually so and the elements in the summary will include - (a) the full identity of the successful buyer or tenderer including details of cross ownership of relevant companies; (b) the duration of the contract including details of future transfers of assets of significant value to government at no or nominal cost and details of the right to receive the asset and the date of the future transfer; (c) the identification and timing of any assets transferred to the contractor by the public sector; (d) all maintenance provisions in the contract; (e) the price payable by the public and the basis for future changes in the price payable; (f) provisions for re-negotiations; (g) the results of cost-benefit analyses; (h) the risk sharing provisions; (i) significant guarantees or undertakings including Treasurer's guarantees or loans entered into or agreed to be entered into; and (j) to the extent not covered above, the remaining key elements of the contractual arrangements.
278. **MR BRUMBY** - To move, That this House condemns the Government for failing to protect the interests of outworkers in Victoria's Textile, Clothing and Footwear industries, by abolishing the Clothing Trades Award and by maintaining purchasing policies that permit the Government to enter into contracts with companies that exploit outworkers and accordingly, calls on the Government to immediately - (a) review all contracts to ensure that it does not purchase from companies that mistreat outworkers; (b) stop providing financial assistance to companies that exploit outworkers; and (c) endorse the plan of the New South Wales Government which - (i) requires all companies doing business with Government agencies to comply with relevant award requirements;

(ii) endorses an industry code of conduct developed by the Textile, Clothing and Footwear Union of Australia in conjunction with major retailers that signs up retailers to ensure that they do not sell products made by exploited labour; and (iii) establishes a public awareness campaign targeted at schools and ethnic communities to make people aware of the issues and the support available to assist outworkers.

280. **MRS CAMPBELL** - To move, That this House condemns the Minister for Youth and Community Services for establishing the precedent of putting Victoria's women's refuges to tender by tendering two existing rural refuges (one in the Latrobe Valley and the other in the Barwon region) and one new refuge in the Grampians and for his failure to ensure that the addresses of women's refuges remain subject to confidentiality.

271. **MR ROWE** - To move, That this House congratulates the members of the Cranbourne Ambulance Service for providing an excellent professional service to the people of Cranbourne and notes the support demonstrated by the community despite the attempts by the Deputy Leader of the Opposition, as a puppet of the Ambulance Union, to discredit these five dedicated officers and their families by deliberately misleading the community as to the true quality of this service.
272. **MR HAERMAYER** - To move, That this House condemns the Premier for allowing his Government to be the most corrupt Government in the history of this State since the Government of Tommy Bent and condemns the Member for Cranbourne for his part in that Government.

273. **MS DAVIES** - To move, That this House deplores the actions of the Minister for Agriculture and Resources in - (a) falsely raising the hopes of farmers in South and West Gippsland that the Productivity Enhancement Program interest subsidies can be used to purchase fodder, when no such use is currently possible; (b) failing to provide low interest loans to farmers to enable them to continue feeding their stock this winter; and (c) refusing to apply to the Federal Government for relief under Exceptional Circumstances legislation when Federal Government Members have indicated the likelihood of a favourable response to such an application.
274. **MR BRUMBY** - To move, That this House condemns the Government for its failure to recognise the extreme duress that many small businesses have suffered as a result of its failure to enact adequate retail tenancies legislation and that the Retail Tenancies (Amendment) Act 1995 failed to address the key problems faced by small business in Victoria and accordingly - (a) calls on the government to immediately increase the small business representation on the working party that has been established by the Minister for Small Business; and (b) the Government immediately introduce legislation that addresses: (i) the deficiencies in the process of valuation; (ii) the application of legislation to franchises and public corporations; (iii) changes in tenancy mixes in retail shopping complexes; (iv) the supply of landlord disclosure statements; (v) unconscionable clauses in leases and unconscionable behaviour by parties to leases; and (vi) establish a Retail Tenancies Tribunal.

277. **MR LONEY** - To move, That this House calls on the Government to introduce legislation immediately that will ensure that contract summaries relating to all asset sales and contracting out of government services are made available to the public within 90 days of the contract becoming effective, through tabling in Parliament by the responsible Minister and publication in a major newspaper; and where Parliamentary sittings cannot accommodate the 90 day rule, then tabling within three days of commencement of the next Parliamentary sitting will suffice; furthermore the contract summary is to be certified by the Auditor-General, after he has been given access to all information relating to the transaction, and once he is satisfied that relevant details are being disclosed and that matters claimed to be commercially sensitive are actually so and the elements in the summary will include - (a) the full identity of the successful buyer or

tenderer including details of cross ownership of relevant companies; (b) the duration of the contract including details of future transfers of assets of significant value to government at no or nominal cost and details of the right to receive the asset and the date of the future transfer; (c) the identification and timing of any assets transferred to the contractor by the public sector; (d) all maintenance provisions in the contract; (e) the price payable by the public and the basis for future changes in the price payable; (f) provisions for re-negotiations; (g) the results of cost-benefit analyses; (h) the risk sharing provisions; (i) significant guarantees or undertakings including Treasurer's guarantees or loans entered into or agreed to be entered into; and (j) to the extent not covered above, the remaining key elements of the contractual arrangements.

278. **MR BRUMBY** - To move, That this House condemns the Government for failing to protect the interests of outworkers in Victoria's Textile, Clothing and Footwear industries, by abolishing the Clothing Trades Award and by maintaining purchasing policies that permit the Government to enter into contracts with companies that exploit outworkers and accordingly, calls on the Government to immediately - (a) review all contracts to ensure that it does not purchase from companies that mistreat outworkers; (b) stop providing financial assistance to companies that exploit outworkers; and (c) endorse the plan of the New South Wales Government which - (i) requires all companies doing business with Government agencies to comply with relevant award requirements; (ii) endorses an industry code of conduct developed by the Textile, Clothing and Footwear Union of Australia in conjunction with major retailers that signs up retailers to ensure that they do not sell products made by exploited labour; and (iii) establishes a public awareness campaign targeted at schools and ethnic communities to make people aware of the issues and the support available to assist outworkers.

273. **MS DAVIES** - To move, That this House deplores the actions of the Minister for Agriculture and Resources in - (a) falsely raising the hopes of farmers in South and West Gippsland that the Productivity Enhancement Program interest subsidies can be used to purchase fodder, when no such use is currently possible; (b) failing to provide low interest loans to farmers to enable them to continue feeding their stock this winter; and (c) refusing to apply to the Federal Government for relief under Exceptional Circumstances legislation when Federal Government Members have indicated the likelihood of a favourable response to such an application.
274. **MR BRUMBY** - To move, That this House condemns the Government for its failure to recognise the extreme duress that many small businesses have suffered as a result of its failure to enact adequate retail tenancies legislation and that the *Retail Tenancies (Amendment) Act* 1995 failed to address the key problems faced by small business in Victoria and accordingly - (a) calls on the government to immediately increase the small business representation on the working party that has been established by the Minister for Small Business; and (b) the Government immediately introduce legislation that addresses: (i) the deficiencies in the process of valuation; (ii) the application of legislation to franchises and public corporations; (iii) changes in tenancy mixes in retail shopping complexes; (iv) the supply of landlord disclosure statements; (v) unconscionable clauses in leases and unconscionable behaviour by parties to leases; and (vi) establish a Retail Tenancies Tribunal.
275. **MR BRUMBY** - To move, That this House notes the editorial of *The Australian*, May, 22 1997 headed "Failed Minister must go", and particularly its comment that Mrs Tehan has "since 1995 treated Parliament and by extension the people of Victoria with contempt over the Intergraph affair" and that as a consequence, "she should go", calls on the Premier to sack the Minister for Conservation and Land Management.
276. **MR BRUMBY** - To move, That this House notes the editorial of the *Herald Sun* on May, 22 1997 which stated that - (a) taxpayers require a detailed explanation from former Health Minister Marie Tehan why she is not responsible for the scandal arising from several breaches of government guidelines over contracts for a computer aided dispatch system for our emergency services; (b) Mrs Tehan has neglected to explain why she did not receive or was not made aware of the now controversial memo written only a month before the state election; and (c) Mrs Tehan's brief explanation to the Parliament on Tuesday, 20 May 1997 was far from satisfactory; fully endorses the *Herald Sun's* call for Mrs Tehan and the "government to name all those who had access to the Olszak paper; whether one or a number of persons withheld the information from the Minister; and having learned of the contents of the memo, whether Mrs Tehan made any subsequent attempt to question her former staff about why she was not informed".
277. **MR LONEY** - To move, That this House calls on the Government to introduce legislation immediately that will ensure that contract summaries relating to all asset sales and contracting out of government services are made available to the public within 90 days of the contract becoming effective, through tabling in Parliament by the responsible Minister and publication in a major newspaper; and where Parliamentary sittings cannot accommodate the 90 day rule, then tabling within three days of commencement of the next Parliamentary sitting will suffice; furthermore the contract summary is to be certified by the Auditor-General, after he has been given access to all information relating to the transaction, and once he is satisfied that relevant details are being disclosed and that matters claimed to be commercially sensitive are actually so and the elements in the summary will include - (a) the full identity of the successful buyer or

tenderer including details of cross ownership of relevant companies; (b) the duration of the contract including details of future transfers of assets of significant value to government at no or nominal cost and details of the right to receive the asset and the date of the future transfer; (c) the identification and timing of any assets transferred to the contractor by the public sector; (d) all maintenance provisions in the contract; (e) the price payable by the public and the basis for future changes in the price payable; (f) provisions for re-negotiations; (g) the results of cost-benefit analyses; (h) the risk sharing provisions; (i) significant guarantees or undertakings including Treasurer's guarantees or loans entered into or agreed to be entered into; and (j) to the extent not covered above, the remaining key elements of the contractual arrangements.

278. **MR BRUMBY** - To move, That this House condemns the Government for failing to protect the interests of outworkers in Victoria's Textile, Clothing and Footwear industries, by abolishing the Clothing Trades Award and by maintaining purchasing policies that permit the Government to enter into contracts with companies that exploit outworkers and accordingly, calls on the Government to immediately - (a) review all contracts to ensure that it does not purchase from companies that mistreat outworkers; (b) stop providing financial assistance to companies that exploit outworkers; and (c) endorse the plan of the New South Wales Government which - (i) requires all companies doing business with Government agencies to comply with relevant award requirements; (ii) endorses an industry code of conduct developed by the Textile, Clothing and Footwear Union of Australia in conjunction with major retailers that signs up retailers to ensure that they do not sell products made by exploited labour; and (iii) establishes a public awareness campaign targeted at schools and ethnic communities to make people aware of the issues and the support available to assist outworkers.

282. **MR HULLS** - To move, That this House condemns the Attorney-General for her failure to take action to protect from disclosure in legal proceedings, confidential communications between victims of sexual assault and their counsellors, thereby causing enormous emotional stress to victims with the result that many vulnerable victims are reluctant to confide in counsellors.
283. **MR BATCHELOR** - To move, That this House - (i) condemns the Government and the Minister for Transport for their bungling and mismanagement of the \$330 million Automatic Ticketing fiasco; (ii) notes that the system is more than three and a half years overdue, with phase one due in May 1994 and the full implementation due in August 1995; (iii) notes also that this massive failure of the Kennett Government has resulted in

costing the taxpayers of Victoria millions of dollars in fare evasion, extra staff and redundancy payments, delayed and lost budget savings; (iv) calls on the Minister for Transport to deliver a ministerial statement to this House, detailing the millions of dollars the Government has lost in yet another bungled contract, and to detail the commercial arrangements it has with the discredited OneLink Consortium and to explain why the Minister for Transport has once again failed to take decisive action to get OneLink to perform or why the contract has not been cancelled.

- \*285. **MR BRUMBY** - To move, That the Minister for Police and Emergency Services makes a ministerial statement in relation to revelations that a secret police unit in Victoria is keeping covert files on ordinary Victorians and further - (i) that the Minister release guidelines under which this unit operates and give broad details of its operations; (ii) appoints a judge of Supreme Court status to oversee files and destroy those not necessary to ensure law and order; and (iii) that there be allowed debate on the item, in particular as to whether a judicial inquiry is required to determine whether unlawful investigations and operations have taken place at the behest of unaccountable police officers or politicians into community organisations for improper and/or political purposes.
- \*286. **MR HAERMEYER** - To move, That he have leave to bring in a Bill to amend the *Retail Tenancies Act 1986* to give small retailers greater rights in lease negotiations and dispute resolution with landlords by - (a) establishing a Retail Tenancies Tribunal to hear and determine disputes between retailers and landlords; (b) introducing mandatory landlord disclosure statements; (c) extending the definition of retail tenants to include shops which are larger than 1000 square metres; and (d) giving existing retail tenants first preference in the renewal of lease arrangements and for other purposes.
- \*287. **MR BRUMBY** - To move, That this House condemns the State Government for its continued bungling and mismanagement in relation to - (a) the OneLink fiasco in which the State Government selected the wrong tender for the system and as a result the introduction of automatic ticketing has been delayed by more than three years, taxpayers have lost millions due to fare evasion and the retrenchment and re-hiring of transport staff, and taxpayers are now exposed to a significant legal liability to get the State Government out of its contract with OneLink; (b) the Intergraph scandal for which Mrs. Tehan refuses to take responsibility despite the continuing failure of the system, her attempts to cover up the scandal, and the police now being required to investigate the matter involving dawn raids on the homes of Mr Jack Firman and others at the centre of the scandal; (c) the local government superannuation black hole bungle which as a result of negligence on the part of the Treasurer, has resulted in the State Government and local councils being exposed to a liability of hundreds of millions of dollars; and (d) the Treasurer's failure to secure OOCL's \$150 million investment at the Port of Melbourne leading to the company's decision to locate in Sydney putting at risk

Melbourne's place as Australia's premier container port and causing the loss of hundreds of new jobs for Victorians and therefore calls on the Government to account to this House for the hundreds of millions it has bungled and mismanaged in the course of its five years in office.

- \*288. **MR HULLS** - To move, That this House in accordance with the advice provided to the Opposition by the Speaker of the House moves to immediately deal with the Premier, whose grossly inappropriate conduct in accepting various gifts from the Grollo group of companies, including - (i) a \$2,000 helicopter flight for him and his family to the ski slopes of Mt Buller; and (ii) free accommodation in Mr Grollo's new exclusive five star lodge for him and his family; is a flagrant breach of section 6 of the *Members of Parliament (Register of Interests) Act 1978*, and in particular to s6(2)(h) of that Act, which requires a Member of Parliament to declare in the pecuniary interest register: "*(h) Particulars of any gift of or above the amount or value of \$500 received by the Member from a person other than a person related to him by blood or marriage;*" and that this House now immediately deals with this matter as a contempt of the Parliament pursuant to section 9 of the *Members of Parliament (Register of Interests) Act 1978* in that it is a wilful contravention of the Act and that an appropriate penalty for breaking this law be immediately imposed upon the Premier.

dollars the Government has lost in yet another bungled contract, and to detail the commercial arrangements it has with the discredited OneLink Consortium and to explain why the Minister for Transport has once again failed to take decisive action to get OneLink to perform or why the contract has not been cancelled.

283. **MR BRUMBY** - To move, That this House noting the tragic case of Mr Dale Sheppard, who was tragically injured when his bicycle collided with a motor car whilst he was riding home from work, agrees to amend the *Transport Accident Act 1986* as proposed by the Leader of the Opposition to provide for fair and appropriate compensation for cyclists injured or killed in a collision with a motor car, tram or train, irrespective of whether the vehicle is moving or stationary.
284. **MR BRUMBY** - To move, That the Minister for Police and Emergency Services makes a ministerial statement in relation to revelations that a secret police unit in Victoria is keeping covert files on ordinary Victorians and further - (i) that the Minister release guidelines under which this unit operates and give broad details of its operations; (ii) appoints a judge of Supreme Court status to oversee files and destroy those not necessary to ensure law and order; and (iii) that there be allowed debate on the item, in particular as to whether a judicial inquiry is required to determine whether unlawful investigations and operations have taken place at the behest of unaccountable police officers or politicians into community organisations for improper and/or political purposes.
285. **MR HAERMAYER** - To move, That he have leave to bring in a Bill to amend the *Retail Tenancies Act 1986* to give small retailers greater rights in lease negotiations and dispute resolution with landlords by - (a) establishing a Retail Tenancies Tribunal to hear and determine disputes between retailers and landlords; (b) introducing mandatory landlord disclosure statements; (c) extending the definition of retail tenants to include shops which are larger than 1000 square metres; and (d) giving existing retail tenants first preference in the renewal of lease arrangements and for other purposes.
286. **MR BRUMBY** - To move, That this House condemns the State Government for its continued bungling and mismanagement in relation to - (a) the OneLink fiasco in which the State Government selected the wrong tender for the system and as a result the introduction of automatic ticketing has been delayed by more than three years, taxpayers have lost millions due to fare evasion and the retrenchment and re-hiring of transport staff, and taxpayers are now exposed to a significant legal liability to get the State Government out of its contract with OneLink; (b) the Intergraph scandal for which Mrs. Tehan refuses to take responsibility despite the continuing failure of the system, her attempts to cover up the scandal, and the police now being required to investigate the matter involving dawn raids on the homes of Mr Jack Firman and others at the centre of the scandal; (c) the local government superannuation black hole bungle which as a result of negligence on the part of the Treasurer, has resulted in the State Government and local councils being exposed to a liability of hundreds of millions of dollars; and (d) the Treasurer's failure to secure OOCL's \$150 million investment at the Port of Melbourne leading to the company's decision to locate in Sydney putting at risk Melbourne's place as Australia's premier container port and causing the loss of hundreds of new jobs for Victorians and therefore calls on the Government to account to this House for the hundreds of millions it has bungled and mismanaged in the course of its five years in office.

287. **MR HULLS** - To move, That this House in accordance with the advice provided to the Opposition by the Speaker of the House moves to immediately deal with the Premier, whose grossly inappropriate conduct in accepting various gifts from the Grollo group of companies, including - (i) a \$2,000 helicopter flight for him and his family to the ski slopes of Mt Buller; and (ii) free accommodation in Mr Grollo's new exclusive five star lodge for him and his family; is a flagrant breach of section 6 of the *Members of Parliament (Register of Interests) Act 1978*, and in particular to s6(2)(h) of that Act, which requires a Member of Parliament to declare in the pecuniary interest register: "*(h) Particulars of any gift of or above the amount or value of \$500 received by the Member from a person other than a person related to him by blood or marriage;*" and that this House now immediately deals with this matter as a contempt of the Parliament pursuant to section 9 of the *Members of Parliament (Register of Interests) Act 1978* in that it is a wilful contravention of the Act and that an appropriate penalty for breaking this law be immediately imposed upon the Premier.
288. **MR BATCHELOR** - To move, That this House dissents from the ruling of Mr Speaker made on 8 October 1997 in which Mr Speaker refused to accept an adjournment motion from the Member for Niddrie which intended to allow the Legislative Assembly to debate issues around the Premier's failure to take urgent administrative action to properly respond to the serious allegations of misconduct and maladministration by the Premier made on 22 September 1997 by the former senior government adviser, Mr Stephen Mayne; in particular, the House views with extreme concern that Mr Speaker took this action without hearing the full range of argument from the Opposition as to why this motion complied with the past practices and precedents and in doing so failed to uphold the rights of the minority and in effect denied the Opposition one of the few opportunities it has in initiating Parliamentary debate under the most restricted set of Sessional Orders to apply in any Parliament in Australia.
289. **MR BRUMBY** - To move, That this House noting the Premier's continuing and long standing support for the maintenance of secret police files on ordinary citizens and community groups as evidenced by his statement in 1983 that: "*In disbanding the special branch, the Cain Government has acted to protect the guilty and allow them to pursue their subversions, disloyalties and disruptions free of scrutiny*"; and his statements this week in relation to secret files, currently held on community and ethnic organisations by the Victoria Police that: "*Some members of the multicultural community are under police surveillance because they ... at times abuse or threaten the law or have criminal records*"; and that: "*The police force could not afford to be naked in the field against those who are going to pervert the course of justice and commit acts of crime*"; and that accordingly, the House condemns the Premier for the slur he has cast on all community organisations, in particular, ethnic community organisations, by his endorsement and total support for covert surveillance of law abiding citizens by the Victoria police and his repeated statements attacking the lawfulness and integrity of community organisations and their members.
290. **MR BRACKS** - To move, That this House condemns the Premier for his failure to take urgent administrative action to properly respond to very serious allegations of misconduct and maladministration by the Premier made on 22 September 1997 by former senior government advisor, Mr Stephen Mayne.

- \*291. **MR BATCHELOR** - To move, That this House dissents from the actions of the Deputy Speaker on Thursday, 9 October 1997 to close down this House towards the end of the Parliamentary day without allowing Members to raise important issues of public concern, as is their right and their obligation and in particular, the actions of the Deputy Speaker in refusing to allow the Member for Werribee to speak in the nightly adjournment debate after giving that Member the call.
- \*292. **MR BRACKS** - To move, That this House notes the Treasurer's comments in this House in 1987 on common law rights for injured workers where he said: *"I assure the Treasurer that the Liberal Party, so long as it has the capacity to do so, will not allow the destruction of important and traditional common-law rights and that it will seek - and it is confident it will obtain and continue to enjoy - the support of the National Party in the other place to protect the basic rights of the Victorian Community"*, and condemns the Treasurer for losing his battle with the National Party's Minister for Finance, the Honourable Roger Hallam, to retain common law for injured workers, and therefore breaking yet another Liberal Party promise.

16. **CITY LINK PROJECT - TRANSURBAN CONTRACT** - *Resumption of debate on the question* - That this House condemns the Government for entering a contract with the Transurban consortium for the City Link project which is anti-competitive and places an

unacceptable financial burden on Victorian motorists and taxpayers because - (a) the contract requires the closure or narrowing of major arterial roads in Melbourne so as to force cars onto the City Link tollway, and allows Transurban to claim compensation from the Government if any of these traffic measures are removed; (b) the contract requires Transurban to be compensated for lost tollway revenue if, amongst other things, the Government - (i) upgrades alternative roads; (ii) builds a rapid transit link to Tullamarine Airport; and (iii) upgrades other alternative transport routes to City Link; and (c) the contract requires motorists to pay tolls for 34 years, at a total cost of about \$7 billion, whereas the actual construction cost of City Link is \$1.2 billion (*Mr Batchelor*).

269. **MR ROWE** - To move, That this House congratulates the members of the Cranbourne Ambulance Service for providing an excellent professional service to the people of Cranbourne and notes the support demonstrated by the community despite the attempts by the Deputy Leader of the Opposition, as a puppet of the Ambulance Union, to discredit these five dedicated officers and their families by deliberately misleading the community as to the true quality of this service.

Tuesday, 20 May 1997 was far from satisfactory; fully endorses the Herald Sun's call for Mrs Tehan and the "government to name all those who had access to the Olszak paper; whether one or a number of persons withheld the information from the Minister; and having learned of the contents of the memo, whether Mrs Tehan made any subsequent attempt to question her former staff about why she was not informed".

285. **MR BRUMBY** - To move, That this House condemns the State Government for its continued bungling and mismanagement in relation to - (a) the OneLink fiasco in which the State Government selected the wrong tender for the system and as a result the introduction of automatic ticketing has been delayed by more than three years, taxpayers have lost millions due to fare evasion and the retrenchment and re-hiring of transport staff, and taxpayers are now exposed to a significant legal liability to get the State Government out of its contract with OneLink; (b) the Intergraph scandal for which Mrs. Tehan refuses to take responsibility despite the continuing failure of the system, her attempts to cover up the scandal, and the police now being required to investigate the matter involving dawn raids on the homes of Mr Jack Firman and others at the centre of the scandal; (c) the local government superannuation black hole bungle which as a result of negligence on the part of the Treasurer, has resulted in the State Government and local councils being exposed to a liability of hundreds of millions of dollars; and (d) the Treasurer's failure to secure OOCL's \$150 million investment at the Port of Melbourne leading to the company's decision to locate in Sydney putting at risk Melbourne's place as Australia's premier container port and causing the loss of hundreds of new jobs for Victorians and therefore calls on the Government to account to this House for the hundreds of millions it has bungled and mismanaged in the course of its five years in office.

287. **MR BATCHELOR** - To move, That this House dissents from the ruling of Mr Speaker made on 8 October 1997 in which Mr Speaker refused to accept an adjournment motion from the Member for Niddrie which intended to allow the Legislative Assembly to debate issues around the Premier's failure to take urgent administrative action to properly respond to the serious allegations of misconduct and maladministration by the Premier made on 22 September 1997 by the former senior government adviser, Mr Stephen Mayne; in particular, the House views with extreme concern that Mr Speaker took this action without hearing the full range of argument from the Opposition as to why this motion complied with the past practices and precedents and in doing so failed to uphold the rights of the minority and in effect denied the Opposition one of the few opportunities it has in initiating Parliamentary debate under the most restricted set of Sessional Orders to apply in any Parliament in Australia.
288. **MR BRUMBY** - To move, That this House noting the Premier's continuing and long standing support for the maintenance of secret police files on ordinary citizens and community groups as evidenced by his statement in 1983 that: "*In disbanding the special branch, the Cain Government has acted to protect the guilty and allow them to pursue their subversions, disloyalties and disruptions free of scrutiny*"; and his statements this week in

relation to secret files, currently held on community and ethnic organisations by the Victoria Police that: *"Some members of the multicultural community are under police surveillance because they ... at times abuse or threaten the law or have criminal records"*; and that: *"The police force could not afford to be naked in the field against those who are going to pervert the course of justice and commit acts of crime"*; and that accordingly, the House condemns the Premier for the slur he has cast on all community organisations, in particular, ethnic community organisations, by his endorsement and total support for covert surveillance of law abiding citizens by the Victoria police and his repeated statements attacking the lawfulness and integrity of community organisations and their members.

291. **MR BRACKS** - To move, That this House notes the Treasurer's comments in this House in 1987 on common law rights for injured workers where he said: *"I assure the Treasurer that the Liberal Party, so long as it has the capacity to do so, will not allow the destruction of important and traditional common-law rights and that it will seek - and it is confident it will obtain and continue to enjoy - the support of the National Party in the other place to protect the basic rights of the Victorian Community"*, and condemns the Treasurer for losing his battle with the National Party's Minister for Finance, the Honourable Roger Hallam, to retain common law for injured workers, and therefore breaking yet another Liberal Party promise.
- \*292. **MRS CAMPBELL** - To move, That this House notes examples of illegal adoptions in Victoria between 1940-1984 and calls on the Parliament to investigate Victorian adoption practices during that period and further calls for an apology to be given to the biological parent or parents because of the State's failure to ensure that all adoptive mothers/parents gave their informed consent prior to signing an adoption consent form.

280. **MR HULLS** - To move, That this House condemns the Attorney-General for her failure to take action to protect from disclosure in legal proceedings, confidential communications between victims of sexual assault and their counsellors, thereby causing enormous emotional stress to victims with the result that many vulnerable victims are reluctant to confide in counsellors.

281. **MR BATCHELOR** - To move, That this House - (i) condemns the Government and the Minister for Transport for their bungling and mismanagement of the \$330 million Automatic Ticketing fiasco; (ii) notes that the system is more than three and a half years overdue, with phase one due in May 1994 and the full implementation due in August 1995; (iii) notes also that this massive failure of the Kennett Government has resulted in costing the taxpayers of Victoria millions of dollars in fare evasion, extra staff and redundancy payments, delayed and lost budget savings; (iv) calls on the Minister for Transport to deliver a ministerial statement to this House, detailing the millions of dollars the Government has lost in yet another bungled contract, and to detail the commercial arrangements it has with the discredited OneLink Consortium and to explain why the Minister for Transport has once again failed to take decisive action to get OneLink to perform or why the contract has not been cancelled.
282. **MR BRUMBY** - To move, That this House noting the tragic case of Mr Dale Sheppard, who was tragically injured when his bicycle collided with a motor car whilst he was riding home from work, agrees to amend the *Transport Accident Act* 1986 as proposed by the Leader of the Opposition to provide for fair and appropriate compensation for cyclists injured or killed in a collision with a motor car, tram or train, irrespective of whether the vehicle is moving or stationary.
283. **MR BRUMBY** - To move, That the Minister for Police and Emergency Services makes a ministerial statement in relation to revelations that a secret police unit in Victoria is keeping covert files on ordinary Victorians and further - (i) that the Minister release guidelines under which this unit operates and give broad details of its operations; (ii) appoints a judge of Supreme Court status to oversee files and destroy those not necessary to ensure law and order; and (iii) that there be allowed debate on the item, in particular as to whether a judicial inquiry is required to determine whether unlawful investigations and operations have taken place at the behest of unaccountable police officers or politicians into community organisations for improper and/or political purposes.
284. **MR HAERMAYER** - To move, That he have leave to bring in a Bill to amend the *Retail Tenancies Act* 1986 to give small retailers greater rights in lease negotiations and dispute resolution with landlords by - (a) establishing a Retail Tenancies Tribunal to hear and determine disputes between retailers and landlords; (b) introducing mandatory landlord disclosure statements; (c) extending the definition of retail tenants to include shops which are larger than 1000 square metres; and (d) giving existing retail tenants first preference in the renewal of lease arrangements and for other purposes.
285. **MR BRUMBY** - To move, That this House condemns the State Government for its continued bungling and mismanagement in relation to - (a) the OneLink fiasco in which the State Government selected the wrong tender for the system and as a result the introduction of automatic ticketing has been delayed by more than three years, taxpayers have lost millions due to fare evasion and the retrenchment and re-hiring of transport staff, and taxpayers are now exposed to a significant legal liability to get the State Government out of its contract with OneLink; (b) the Intergraph scandal for which Mrs. Tehan refuses to take responsibility despite the continuing failure of the system, her attempts to cover up the scandal, and the police now being required to investigate the matter involving dawn raids on the homes of Mr Jack Firman and others at the centre of the scandal; (c) the local government superannuation black hole bungle which as a result of negligence on the part of the Treasurer, has resulted in the State Government and local councils being exposed to a liability of hundreds of millions of dollars; and (d) the Treasurer's failure to secure OOCL's \$150 million investment at the

Port of Melbourne leading to the company's decision to locate in Sydney putting at risk Melbourne's place as Australia's premier container port and causing the loss of hundreds of new jobs for Victorians and therefore calls on the Government to account to this House for the hundreds of millions it has bungled and mismanaged in the course of its five years in office.

286. **MR HULLS** - To move, That this House in accordance with the advice provided to the Opposition by the Speaker of the House moves to immediately deal with the Premier, whose grossly inappropriate conduct in accepting various gifts from the Grollo group of companies, including - (i) a \$2,000 helicopter flight for him and his family to the ski slopes of Mt Buller; and (ii) free accommodation in Mr Grollo's new exclusive five star lodge for him and his family; is a flagrant breach of section 6 of the *Members of Parliament (Register of Interests) Act 1978*, and in particular to s6(2)(h) of that Act, which requires a Member of Parliament to declare in the pecuniary interest register: "*(h) Particulars of any gift of or above the amount or value of \$500 received by the Member from a person other than a person related to him by blood or marriage;*" and that this House now immediately deals with this matter as a contempt of the Parliament pursuant to section 9 of the *Members of Parliament (Register of Interests) Act 1978* in that it is a wilful contravention of the Act and that an appropriate penalty for breaking this law be immediately imposed upon the Premier.
287. **MR BATCHELOR** - To move, That this House dissents from the ruling of Mr Speaker made on 8 October 1997 in which Mr Speaker refused to accept an adjournment motion from the Member for Niddrie which intended to allow the Legislative Assembly to debate issues around the Premier's failure to take urgent administrative action to properly respond to the serious allegations of misconduct and maladministration by the Premier made on 22 September 1997 by the former senior government adviser, Mr Stephen Mayne; in particular, the House views with extreme concern that Mr Speaker took this action without hearing the full range of argument from the Opposition as to why this motion complied with the past practices and precedents and in doing so failed to uphold the rights of the minority and in effect denied the Opposition one of the few opportunities it has in initiating Parliamentary debate under the most restricted set of Sessional Orders to apply in any Parliament in Australia.
288. **MR BRUMBY** - To move, That this House noting the Premier's continuing and long standing support for the maintenance of secret police files on ordinary citizens and community groups as evidenced by his statement in 1983 that: "*In disbanding the special branch, the Cain Government has acted to protect the guilty and allow them to pursue their subversions, disloyalties and disruptions free of scrutiny*"; and his statements this week in relation to secret files, currently held on community and ethnic organisations by the Victoria Police that: "*Some members of the multicultural community are under police surveillance because they ... at times abuse or threaten the law or have criminal records*"; and that: "*The police force could not afford to be naked in the field against those who are going to pervert the course of justice and commit acts of crime*"; and that accordingly, the House condemns the Premier for the slur he has cast on all community organisations, in particular, ethnic community organisations, by his endorsement and total support for covert surveillance of law abiding citizens by the Victoria police and his repeated statements attacking the lawfulness and integrity of community organisations and their members.

289. **MR BRACKS** - To move, That this House condemns the Premier for his failure to take urgent administrative action to properly respond to very serious allegations of misconduct and maladministration by the Premier made on 22 September 1997 by former senior government advisor, Mr Stephen Mayne.
290. **MR BATCHELOR** - To move, That this House dissents from the actions of the Deputy Speaker on Thursday, 9 October 1997 to close down this House towards the end of the Parliamentary day without allowing Members to raise important issues of public concern, as is their right and their obligation and in particular, the actions of the Deputy Speaker in refusing to allow the Member for Werribee to speak in the nightly adjournment debate after giving that Member the call.
291. **MR BRACKS** - To move, That this House notes the Treasurer's comments in this House in 1987 on common law rights for injured workers where he said: "*I assure the Treasurer that the Liberal Party, so long as it has the capacity to do so, will not allow the destruction of important and traditional common-law rights and that it will seek - and it is confident it will obtain and continue to enjoy - the support of the National Party in the other place to protect the basic rights of the Victorian Community*", and condemns the Treasurer for losing his battle with the National Party's Minister for Finance, the Honourable Roger Hallam, to retain common law for injured workers, and therefore breaking yet another Liberal Party promise.
292. **MRS CAMPBELL** - To move, That this House notes examples of illegal adoptions in Victoria between 1940-1984 and calls on the Parliament to investigate Victorian adoption practices during that period and further calls for an apology to be given to the biological parent or parents because of the State's failure to ensure that all adoptive mothers/parents gave their informed consent prior to signing an adoption consent form.

283. **MR BRUMBY** - To move, That the Minister for Police and Emergency Services makes a ministerial statement in relation to revelations that a secret police unit in Victoria is keeping covert files on ordinary Victorians and further - (i) that the Minister release guidelines under which this unit operates and give broad details of its operations; (ii) appoints a judge of Supreme Court status to oversee files and destroy those not necessary to ensure law and order; and (iii) that there be allowed debate on the item, in particular as to whether a judicial inquiry is required to determine whether unlawful investigations and operations have taken place at the behest of unaccountable police officers or politicians into community organisations for improper and/or political purposes.

285. **MR BRUMBY** - To move, That this House condemns the State Government for its continued bungling and mismanagement in relation to - (a) the OneLink fiasco in which the State Government selected the wrong tender for the system and as a result the introduction of automatic ticketing has been delayed by more than three years, taxpayers have lost millions due to fare evasion and the retrenchment and re-hiring of transport staff, and taxpayers are now exposed to a significant legal liability to get the State Government out of its contract with OneLink; (b) the Intergraph scandal for which Mrs. Tehan refuses to take responsibility despite the continuing failure of the system, her attempts to cover up the scandal, and the police now being required to investigate the matter involving dawn raids on the homes of Mr Jack Firman and others at the centre of the scandal; (c) the local government superannuation black hole bungle which as a result of negligence on the part of the Treasurer, has resulted in the State Government and local councils being exposed to a liability of hundreds of millions of dollars; and (d) the Treasurer's failure to secure OOCL's \$150 million investment at the Port of Melbourne leading to the company's decision to locate in Sydney putting at risk Melbourne's place as Australia's premier container port and causing the loss of hundreds of new jobs for Victorians and therefore calls on the Government to account to this House for the hundreds of millions it has bungled and mismanaged in the course of its five years in office.
286. **MR HULLS** - To move, That this House in accordance with the advice provided to the Opposition by the Speaker of the House moves to immediately deal with the Premier, whose grossly inappropriate conduct in accepting various gifts from the Grollo group of companies, including - (i) a \$2,000 helicopter flight for him and his family to the ski

slopes of Mt Buller; and (ii) free accommodation in Mr Grollo's new exclusive five star lodge for him and his family; is a flagrant breach of section 6 of the *Members of Parliament (Register of Interests) Act 1978*, and in particular to s6(2)(h) of that Act, which requires a Member of Parliament to declare in the pecuniary interest register: "*(h) Particulars of any gift of or above the amount or value of \$500 received by the Member from a person other than a person related to him by blood or marriage;*" and that this House now immediately deals with this matter as a contempt of the Parliament pursuant to section 9 of the *Members of Parliament (Register of Interests) Act 1978* in that it is a wilful contravention of the Act and that an appropriate penalty for breaking this law be immediately imposed upon the Premier.

292. **MRS CAMPBELL** - To move, That this House notes examples of illegal adoptions in Victoria between 1940-1984 and calls on the Parliament to investigate Victorian adoption practices during that period and further calls for an apology to be given to the biological parent or parents because of the State's failure to ensure that all adoptive mothers/parents gave their informed consent prior to signing an adoption consent form.

295. **MR CAMERON** - To move, That this House condemns the Government for its health and hospitals policies to silence critics of the Government and notes the present efforts to silence Dunolly Hospital sub-committee member Mr Allister Gray - former Chairman of the Save Dunolly Hospital Committee - and thereby prevent him from speaking openly with the Dunolly community about the future of the hospital.
- \*296. **MR THWAITES** - To move, That this House congratulates the former Member for Mitcham Mr Pescott for his principled stand in resigning from this House on the issue of the Auditor-General and calls upon other Government Members to also resign, including the Member for Frankston East.

282. **MR BRUMBY** - To move, That the Minister for Police and Emergency Services makes a ministerial statement in relation to revelations that a secret police unit in Victoria is keeping covert files on ordinary Victorians and further - (i) that the Minister release guidelines under which this unit operates and give broad details of its operations; (ii) appoints a judge of Supreme Court status to oversee files and destroy those not necessary to ensure law and order; and (iii) that there be allowed debate on the item, in particular as to whether a judicial inquiry is required to determine whether unlawful investigations and operations have taken place at the behest of unaccountable police officers or politicians into community organisations for improper and/or political purposes.
283. **MR HAERMEYER** - To move, That he have leave to bring in a Bill to amend the *Retail Tenancies Act 1986* to give small retailers greater rights in lease negotiations and dispute resolution with landlords by - (a) establishing a Retail Tenancies Tribunal to hear and determine disputes between retailers and landlords; (b) introducing mandatory landlord disclosure statements; (c) extending the definition of retail tenants to include shops which are larger than 1000 square metres; and (d) giving existing retail tenants first preference in the renewal of lease arrangements and for other purposes.
284. **MR BRUMBY** - To move, That this House condemns the State Government for its continued bungling and mismanagement in relation to - (a) the OneLink fiasco in which the State Government selected the wrong tender for the system and as a result the introduction of automatic ticketing has been delayed by more than three years, taxpayers have lost millions due to fare evasion and the retrenchment and re-hiring of transport staff, and taxpayers are now exposed to a significant legal liability to get the State Government out of its contract with OneLink; (b) the Intergraph scandal for which Mrs. Tehan refuses to take responsibility despite the continuing failure of the system, her attempts to cover up the scandal, and the police now being required to investigate the matter involving dawn raids on the homes of Mr Jack Firman and others at the centre of the scandal; (c) the local government superannuation black hole bungle which as a result of negligence on the part of the Treasurer, has resulted in the State Government and local councils being exposed to a liability of hundreds of millions of dollars; and (d) the Treasurer's failure to secure OOCL's \$150 million investment at the Port of Melbourne leading to the company's decision to locate in Sydney putting at risk Melbourne's place as Australia's premier container port and causing the loss of hundreds of new jobs for Victorians and therefore calls on the Government to account to this House for the hundreds of millions it has bungled and mismanaged in the course of its five years in office.
285. **MR HULLS** - To move, That this House in accordance with the advice provided to the Opposition by the Speaker of the House moves to immediately deal with the Premier, whose grossly inappropriate conduct in accepting various gifts from the Grollo group of companies, including - (i) a \$2,000 helicopter flight for him and his family to the ski slopes of Mt Buller; and (ii) free accommodation in Mr Grollo's new exclusive five star lodge for him and his family; is a flagrant breach of section 6 of the *Members of Parliament (Register of Interests) Act 1978*, and in particular to s6(2)(h) of that Act, which

requires a Member of Parliament to declare in the pecuniary interest register: "*(h) Particulars of any gift of or above the amount or value of \$500 received by the Member from a person other than a person related to him by blood or marriage;*" and that this House now immediately deals with this matter as a contempt of the Parliament pursuant to section 9 of the *Members of Parliament (Register of Interests) Act 1978* in that it is a wilful contravention of the Act and that an appropriate penalty for breaking this law be immediately imposed upon the Premier.

286. **MR BATCHELOR** - To move, That this House dissents from the ruling of Mr Speaker made on 8 October 1997 in which Mr Speaker refused to accept an adjournment motion from the Member for Niddrie which intended to allow the Legislative Assembly to debate issues around the Premier's failure to take urgent administrative action to properly respond to the serious allegations of misconduct and maladministration by the Premier made on 22 September 1997 by the former senior government adviser, Mr Stephen Mayne; in particular, the House views with extreme concern that Mr Speaker took this action without hearing the full range of argument from the Opposition as to why this motion complied with the past practices and precedents and in doing so failed to uphold the rights of the minority and in effect denied the Opposition one of the few opportunities it has in initiating Parliamentary debate under the most restricted set of Sessional Orders to apply in any Parliament in Australia.
287. **MR BRUMBY** - To move, That this House noting the Premier's continuing and long standing support for the maintenance of secret police files on ordinary citizens and community groups as evidenced by his statement in 1983 that: "*In disbanding the special branch, the Cain Government has acted to protect the guilty and allow them to pursue their subversions, disloyalties and disruptions free of scrutiny*"; and his statements this week in relation to secret files, currently held on community and ethnic organisations by the Victoria Police that: "*Some members of the multicultural community are under police surveillance because they ... at times abuse or threaten the law or have criminal records*"; and that: "*The police force could not afford to be naked in the field against those who are going to pervert the course of justice and commit acts of crime*"; and that accordingly, the House condemns the Premier for the slur he has cast on all community organisations, in particular, ethnic community organisations, by his endorsement and total support for covert surveillance of law abiding citizens by the Victoria police and his repeated statements attacking the lawfulness and integrity of community organisations and their members.

289. **MR BATCHELOR** - To move, That this House dissents from the actions of the Deputy Speaker on Thursday, 9 October 1997 to close down this House towards the end of the Parliamentary day without allowing Members to raise important issues of public concern, as is their right and their obligation and in particular, the actions of the Deputy Speaker in refusing to allow the Member for Werribee to speak in the nightly adjournment debate after giving that Member the call.

290. **MR BRACKS** - To move, That this House notes the Treasurer's comments in this House in 1987 on common law rights for injured workers where he said: "*I assure the Treasurer that the Liberal Party, so long as it has the capacity to do so, will not allow the destruction of important and traditional common-law rights and that it will seek - and it is confident it will obtain and continue to enjoy - the support of the National Party in the other place to protect the basic rights of the Victorian Community*", and condemns the Treasurer for losing his battle with the National Party's Minister for Finance, the Honourable Roger Hallam, to retain common law for injured workers, and therefore breaking yet another Liberal Party promise.
291. **MRS CAMPBELL** - To move, That this House notes examples of illegal adoptions in Victoria between 1940-1984 and calls on the Parliament to investigate Victorian adoption practices during that period and further calls for an apology to be given to the biological parent or parents because of the State's failure to ensure that all adoptive mothers/parents gave their informed consent prior to signing an adoption consent form.

294. **MR CAMERON** - To move, That this House condemns the Government for its health and hospitals policies to silence critics of the Government and notes the present efforts to silence Dunolly Hospital sub-committee member Mr Allister Gray - former Chairman of the Save Dunolly Hospital Committee - and thereby prevent him from speaking openly with the Dunolly community about the future of the hospital.
295. **MR THWAITES** - To move, That this House congratulates the former Member for Mitcham Mr Pescott for his principled stand in resigning from this House on the issue of the Auditor-General and calls upon other Government Members to also resign, including the Member for Frankston East.

283. **MR BRUMBY** - To move, That this House condemns the State Government for its continued bungling and mismanagement in relation to - (a) the OneLink fiasco in which the State Government selected the wrong tender for the system and as a result the introduction of automatic ticketing has been delayed by more than three years, taxpayers have lost millions due to fare evasion and the retrenchment and re-hiring of transport staff, and taxpayers are now exposed to a significant legal liability to get the State Government out of its contract with OneLink; (b) the Intergraph scandal for which Mrs. Tehan refuses to take responsibility despite the continuing failure of the system, her attempts to cover up the scandal, and the police now being required to investigate the matter involving dawn raids on the homes of Mr Jack Firman and others at the centre of the scandal; (c) the local government superannuation black hole bungle which as a result of negligence on the part of the Treasurer, has resulted in the State Government and local councils being exposed to a liability of hundreds of millions of dollars; and (d) the Treasurer's failure to secure OOCL's \$150 million investment at the Port of Melbourne leading to the company's decision to locate in Sydney putting at risk Melbourne's place as Australia's premier container port and causing the loss of hundreds of new jobs for Victorians and therefore calls on the Government to account to this House for the hundreds of millions it has bungled and mismanaged in the course of its five years in office.
284. **MR HULLS** - To move, That this House in accordance with the advice provided to the Opposition by the Speaker of the House moves to immediately deal with the Premier, whose grossly inappropriate conduct in accepting various gifts from the Grollo group of companies, including - (i) a \$2,000 helicopter flight for him and his family to the ski slopes of Mt Buller; and (ii) free accommodation in Mr Grollo's new exclusive five star lodge for him and his family; is a flagrant breach of section 6 of the *Members of Parliament (Register of Interests) Act 1978*, and in particular to s6(2)(h) of that Act, which requires a Member of Parliament to declare in the pecuniary interest register: "*(h) Particulars of any gift of or above the amount or value of \$500 received by the Member from a person other than a person related to him by blood or marriage;*" and that this House now immediately deals with this matter as a contempt of the Parliament pursuant to section 9 of the *Members of Parliament (Register of Interests) Act 1978* in that it is a wilful contravention of the Act and that an appropriate penalty for breaking this law be immediately imposed upon the Premier.

Premier, Deputy Premier, and the Leader of the House; (iii) Mr Speaker's bias in naming 5 Members of the Opposition and no Member of the Government since March 1996; (iv) Mr Speaker's continued attendance at Liberal Party meetings in breach of long accepted standards of political impartiality; (v) Mr Speaker's unprecedented action in suspending the Leader of the Opposition for one sitting week; (vi) Mr Speaker's conduct on various occasions which has given rise for potential disrepute upon the House; and accordingly calls on Mr Speaker to fully and impartially discharge his responsibilities as required by Westminster traditions, and properly discipline Government Members who persistently and flagrantly breach Standing Orders and defy the Chair.

282. **MR BRUMBY** - To move, That this House condemns the State Government for its continued bungling and mismanagement in relation to - (a) the OneLink fiasco in which the State Government selected the wrong tender for the system and as a result the introduction of automatic ticketing has been delayed by more than three years, taxpayers have lost millions due to fare evasion and the retrenchment and re-hiring of transport staff, and taxpayers are now exposed to a significant legal liability to get the State Government out of its contract with OneLink; (b) the Intergraph scandal for which Mrs. Tehan refuses to take responsibility despite the continuing failure of the system, her attempts to cover up the scandal, and the police now being required to investigate the matter involving dawn raids on the homes of Mr Jack Firman and others at the centre of the scandal; (c) the local government superannuation black hole bungle which as a result of negligence on the part of the Treasurer, has resulted in the State Government and local councils being exposed to a liability of hundreds of millions of dollars; and (d) the Treasurer's failure to secure OOCL's \$150 million investment at the Port of Melbourne leading to the company's decision to locate in Sydney putting at risk Melbourne's place as Australia's premier container port and causing the loss of hundreds of new jobs for Victorians and therefore calls on the Government to account

to this House for the hundreds of millions it has bungled and mismanaged in the course of its five years in office.

283. **MR HULLS** - To move, That this House in accordance with the advice provided to the Opposition by the Speaker of the House moves to immediately deal with the Premier, whose grossly inappropriate conduct in accepting various gifts from the Grollo group of companies, including - (i) a \$2,000 helicopter flight for him and his family to the ski slopes of Mt Buller; and (ii) free accommodation in Mr Grollo's new exclusive five star lodge for him and his family; is a flagrant breach of section 6 of the *Members of Parliament (Register of Interests) Act 1978*, and in particular to s6(2)(h) of that Act, which requires a Member of Parliament to declare in the pecuniary interest register: "*(h) Particulars of any gift of or above the amount or value of \$500 received by the Member from a person other than a person related to him by blood or marriage;*" and that this House now immediately deals with this matter as a contempt of the Parliament pursuant to section 9 of the *Members of Parliament (Register of Interests) Act 1978* in that it is a wilful contravention of the Act and that an appropriate penalty for breaking this law be immediately imposed upon the Premier.
284. **MR BATCHELOR** - To move, That this House dissents from the ruling of Mr Speaker made on 8 October 1997 in which Mr Speaker refused to accept an adjournment motion from the Member for Niddrie which intended to allow the Legislative Assembly to debate issues around the Premier's failure to take urgent administrative action to properly respond to the serious allegations of misconduct and maladministration by the Premier made on 22 September 1997 by the former senior government adviser, Mr Stephen Mayne; in particular, the House views with extreme concern that Mr Speaker took this action without hearing the full range of argument from the Opposition as to why this motion complied with the past practices and precedents and in doing so failed to uphold the rights of the minority and in effect denied the Opposition one of the few opportunities it has in initiating Parliamentary debate under the most restricted set of Sessional Orders to apply in any Parliament in Australia.
